# ACFO 810 8 to 10mm Anchoring clamp for FRP/GRP Figure-8 cable

Product Images

Product Code: S83-1678

---

## Short Description

---

Designed with an opening conical body, two plastic wedges and a flexible 500mm bail, these anchor clamps offer a tensile strength of 750daN.

## Description

---

Designed with an opening conical body, two plastic wedges and a flexible 500mm bail, these anchor clamps offer a tensile strength of 750daN.

This thermoplastic body model, engineered to be mounted on distribution networks with spans up to 90m, enables the dead-ending of FTTH figure-8 drops.

Thanks to the conical clamping concept, no tool is required for the clamp installation

For figure-8 drops Ø 8-10mm
