

# Ring Polehead 2 - Halo Ring

## Product Images

**Product Code: S83-1707**

## Short Description

A replacement larger pole ring to be used mainly on congested poles as an alternative to the standard pole ring (Mills S83-2841). This larger type 15 crown ring diameter measures 501mm and is for network rearrangements and the addition of new fibre enclosures when there are capacity issues with the upper pole envelope.
