Product Images

Product Code: C00-1726

Short Description

These 3 metre 9/125 Single mode, Optitap Compatible Patchleads are designed to enable engineers to test CBTs during installation and for general service and maintenance applications.

Description

These 3 metre 9/125 Single mode, Optitap Compatible Patchleads are designed to enable engineers to test CBTs during installation and for general service and maintenance applications.

The lead is terminated with a male IP67 H Connector type plug (with Angled Physical Contact connector) at one end and an SC/UPC connector at the other.

Also available is an extra long, 15m length version which allows engineers to test CBTs mounted at the top of a pole from ground level.
