

SWC63 Barrel Clamp Terminating Stay Wire

Product Images

Product Code: S83-1880

Short Description

Automatic stay wire wedge clamp for operating stay wire installations. For diameters: 6.1 - 6.6mm

With a removable bail can be mounted directly onto the pin type bracket or universal pole bracket, the stay wire inserts at the narrow extremity of the clamp's body.

The clamp body is made from high strength aluminium alloy and contains spring loaded jaws and measures 104mm by 55mm.

For terminating R02-1735 Stay Wire to the S83-1540 Universal Pole Bracket (UPB)

Ref: 016980
