

Mills Compact Feed Through RJ45 Crimp Tool

Product Images

Product Code: C00-1740

Short Description

A lightweight compact and durable 'Feed Through' RJ45 crimp tool with integral cutter and stripper

providing consistent terminations.

Description

A lightweight compact and durable 'Feed Through' RJ45 crimp tool with integral cutter and stripper providing consistent terminations.

The 'compact' is a pocket sized tool weighing less than 250g and allows the quick and easy termination of Cat5e (T70-5390/5391) and Cat6 (T70-7698/7689) RJ45 through connectors to the appropriate structured cable, trimming off excess cable in one simple action.

This thru crimper also benefits from bi material, 'comfort grip' handles for repetitive applications

Features

Compact design – Two thirds the size of traditional crimpers and weighing less than 250g

Crimps and trims conductors flush in one easy action

Integral cutter and stripper

Suitable for use with Feed Through Cat5e (T70-5390/5391) and Cat6 (T70-7698/7699) RJ45 Connectors

Works on feed-thru, standard and shielded modular plugs

Weight 245g

Length 145mm
