

SDS Plus to 1/2 Inch Square Drive Socket Adaptor

Product Images

Product Code: G70-1770

Short Description

Fits 1/2" square drive sockets and is suitable for drill drivers with SDS plus shank systems.

Description

The SDS plus Adaptor is highly robust and is specially designed to withstand the high power of rotary hammers.

Its S2 Modified Steel and optimised heat-treatment process provide the adaptor with extra endurance for high performance, making it extremely sturdy for long-lasting work.

This makes the product ideal for heavy-duty screw-driving applications such as plant installations or heavy industrial work.

It fits on 1/2-inch square drive sockets and is suitable for drills / drivers with SDS plus shank systems
