

Maxprobe Camera Inspection System 60m

Product Images

Product Code: S83-1895

Short Description

The Maxprobe™ is Scanprobe Techniques' flagship push-rod camera system, designed with the Telecoms engineer in mind. Not satisfied with just being able to survey ducts, this camera system is optimised to make the entire process easy, not just when the camera is in the duct.

Key Features:

60m of tough coated push-rod
IP54 rated when open, IP68 when closed
10.4" sunlight readable screen
9+ hours battery life
32GB internal HDD storage
Sonde built-in to the self-levelling camera head
WinCan Embedded* & mina survey reporting software
Multiple charging options (12v, 110v, 240v)
Wi-Fi enabled

What Can You Do with a Maxprobe™?

Inspect up to 60m of duct, 50mm to 300mm diameter
Take screenshots
Control the lights and sonde remotely
Store up to 32hrs worth of video on the control box
Connect wirelessly to your mobile phone or tablet
Create full survey reports on site
Save your entire project (inc. video) to USB, SD Card or transfer via WiFi**
Change the camera size for different duct diameters
