

Jonard JIC-190 Flush Cut Kevlar Cutter 150mm

Product Images

Product Code: E00-1833

Short Description

The Jonard Tools JIC-190 Flush Cut Kevlar® Cutters are designed to cut Kevlar®, cabling insulation, tape,

cable ties, and other materials flush to the surface.

Features:

- Thin-nose jaws provide easy access into tight places and allow for flush cutting of Kevlar® to the fibre jacket
- Serrated edge holds Kevlar® in place for clean and precise cutting
- Non-serrated blade can be sharpened for continuous long life
- Spring-loaded thermoplastic rubber handles return to the open position for enhanced ergonomics and reduced hand fatigue

Handle: Thermoplastic Rubber

Material: High Carbon Steel

Jaw Length: 0.87" (22.1 mm)

Length Overall: 5.79" (14.7 cm)

Weight: 0.150 lb (68 g)

Manufacturer's Reference: 81149001873
