

Cutter Tube Plier 3A

Product Images

Product Code: E00-1879

Short Description

Used in the telecommunications industry and designed to make cuts around the circumference of, and sever, 8 mm Polyethylene Blown Fibre Tube squarely and cleanly.

The spring loaded tool incorporates a stop to prevent fibre bundles, already inside the tube, from being severed when performing a repair.

Size: 8 mm

Length: 150 mm
