

BWC25 Barrel Clamp Single Strand Bare Wire 2.5mm

Product Images

Product Code: S83-1881

Short Description

For the simple and fast dead-ending of figure-8 cables with steel messengers, comprising a conical body, a pair of wedges, a lanyard and a stainless steel bail.

The clamp body and collar is 70.5 mm by 42 mm. A bail wire is fitted with two ferrules and an insulated UV resistant thermoplastic thimble.

The thimble has a minimum insulating value of 11kV. The bail wire is attached to the collar and held by the two ferrules.

Used for Full Termination of single strand 2.63mm bare catenary wire when replacing existing terminations

Ref 016973
