Short Description

The Casalink Block Terminal (CBT) is a pre-connectorised closure designed for use in the external environment with an IP rating of IP68.

The closure comes in three sizes, 4, 8 and 12 Drop. The closure is supplied with 100M of cable preinstalled into the box terminated on to SC/APC adapters.

Alternatively the CBT can be supplied with splitters installed. These can include unbalanced splitters to allow connecting multiple boxes to one another.For more details on this please contact sales for further information.

The drop cables can be easily installed in to the drop ports. The closure is supplied sealed so the internal workings cannot be tampered with.

The closure is supplied with a separate mounted bracket to ease the installation when working at height.

Features and Benefits

- Compact design.
- Minimal visual impact.
- Quick and easy access.
- Drop cables can be field terminated
- Easy to install

Technical Data

- Max diameter of drop cables: 3 or 6mm
- Required space envelope (mm):
- 3
