

Mills Optical Power Meter 80T

Product Images

Product Code: C00-1887

Short Description

The Mills Optical Power Meter for MM & SM, 850/1000/1310/1490,1550 and 1625nm supplied with 2.5mm universal, FC, SC, ST adaptors.

Display range:

850/1300: +26 ~ -40dBm

1310/1490/1550/1625: +26 ~ -50dBm

Description

The Mills Optical Power Meter is a robust low cost, high resolution pocket sized meter designed for general optical testing applications over both multi and single mode fibre, offering six wavelengths of 850/1000/1310/1490,1550 and 1625nm and a dynamic range of +26 to -50dBm.

The unit is supplied in a cordura type pouch with 2.5mm universal, ST, FC and screw on LC adaptors.

Requires 2 x AA Batteries (Not Included)

Dimensions - 105 x 52 x 34mm Weight 100g

Wide measurement range, High resolution

SingleMode or MultiMode applications

2.5mm universal and FC, SC, ST

850/1300/1310/1490/1550/1625nm

Auto power off

Supplied in cordura type storage pouch

Accepts both PC and APC connectors

Battery life 100 hours

Display range:

1310/1490/1550/1625: +26 ~ -50dBm

850/1300: +26 ~ -40dBm
