

Vertical Stay Bracket

Product Images

Product Code: S83-1860

Short Description

The Vertical Stay Bracket allows poles to be stayed with a much reduced B:H ratio which in many cases will enable jobs to be completed without the need to employ either stout Poles, or non standard solutions.

Site circumstances sometimes prevent the anchor being installed at the min 1:2 position, but using a vertical stay bracket, an anchor can be provided as little as 600mm from the pole.

Ref: 068313
