

CoverUp Key Telecoms Set (formerly known as ManUp Key)

Product Images

Product Code: S83-1917

Short Description

The CoverUp (Formerly ManUp) Key is a revolutionary lifting tool designed to make the removal of stuck manhole covers easy and effortless. A 'one man' solution, it ensures safe lifting and manual handling. The latest v3 version has 2 additional and improved grips for even more comfort and versatility.

Features

- Manholes can be lifted without the use of hammers and chisels, preventing damage to covers and surrounding area
- Provides a momentary upward force of 1.5 tonnes from its 8Kg weight and slide hammer action
- One man solution still ensuring all health and safety aspects of safe lifting and manual handling
- 'Telecoms Kit' includes the Lifting tool, 4 Tips (22mm & 32mm Flat Tips, 12mm J Tip & 20mm Oval Tip) & 2 x Locking clips in a padded case
- Other tips available on request

Lifting Tool Dimensions

Length 800mm

Width: 200mm
