
Microduct Visual Indicator End Cap 7mm Pk50

Product Images

Product Code: Q69-1971

Short Description

Push-fit micro duct end cap with a pressure indicator that allows the chosen duct at the cable blowing position to be identified easily at the cable receiving end, which could be many metres away.

The indicator can be reset and will pop up when 2-3 Bar of pressure is applied.

Max operating pressure 10 Bar
