

Cherry Picker Tote Tray

Product Images

Product Code: B83-2066

Short Description

A versatile container for all your overhead cable consumables and tools – ideal for use with a cherry picker (MEWP) or ladder.

It is ergonomically designed to have easy access to tools, gives a safe environment to work and makes it possible to do your job faster.

Because everything is safe and within your reach there is less lifting, less bending and less chance of accidents.

The cleverly shaped handle can be turned backwards for stability against slanted surfaces such as a ladder.

Less lifting, less bending and both hands free for every job when working at height.
