

Prop Raising Telescopic 6.2m

Product Images

Product Code: S83-2024

Short Description

The Prop Raising Telescopic is an insulated telescopic rod which can extend to 6.2 metres and is used as a temporary support for aerial drop cables that require maintenance and have drooped below 5.2 metres.

The cable raising support is manufactured from non conductive GRP and can collapse to a closed storage length of 1.95 metres including cage.

The prop features a fabricated wire cage which assists in gathering the cable prior to lifting and repositioning.

Formerly S83-3546
