

Weller WLIBAK8 Cordless Battery Powered Soldering Iron 6/8W

Product Images

Product Code: D52-2546

Short Description

The Weller WLIBAK8 Cordless Soldering Iron allows you to skilfully solder anywhere, at any time. Ready

to use in 38 seconds. The iron automatically shuts off into a 'locked' position when the cap is closed. Powered by 4 x AA batteries, so it's easy to swap out dead batteries and keep working. A bright LED light provides illumination for improved visibility in low-light environments.

Specification

Input Power: 6/8W
Max. Temperature: 485°C
Tip: Conical 0.3mm
Weight: 250g
