

PRODUCT DATA SHEET

Product ID: RTLK1
Description: Kinetic™ Tool Lanyard with Choke Loop

Length: 1.25 metres
Web material: 25mm/
20mm water repellent polyester
Webbing strength: > 1000kg
Tool attachment: 210mm choke loop

MAX.
CAPACITY
10kg

The RTK1 is a Kinetic™ twin tool lanyard with a choke loop for tool attachment. It is suitable for tools up to 10kg in weight.

Kinetic™ is our unique webbing specially designed and developed to reduce the potentially devastating shock involved in the event of a fall. It was originally developed for our fall arrest lanyards but the principle is exactly the same and equally important in the event of a falling tool. A Kinetic™ tool lanyard significantly reduces the risk of a dropped tool dragging the user off a platform and, because the deployed distance is less than the shock pack tool lanyard, it can reduce the risk below, too.

*Karabiners are shown for illustrative purposes only and are sold separately.
